
Necromunda: Hired Gun - the new, action-packed indie FPS for consoles and PC is revealed with release date in an epic trailer and opens pre-orders!

PARIS, FRANCE – March 18, 2021 – Focus Home Interactive and StreumOn Studio are delighted to announce and debut the brand new thrilling, violent FPS: Necromunda: Hired Gun. The game is based on Games Workshop's dystopian cityscape, Necromunda, set in the Warhammer 40,000 universe - where gangs battle for survival in a nightmare underhive.

Starting June 1st, hunt your targets, upgrade your guns and bionic augments, and cash in your bounties on PlayStation 5, Xbox Series X|S, PlayStation 4, Xbox One, and PC, as you seek the truth across the endless hive city. [Watch the reveal trailer now!](#)

Pick your contracts. Hunt your targets. Collect the bounty.

Necromunda: Hired Gun is fast-paced and brutal, giving you endless options on how to engage your enemies. Wall-run, double-jump, use your wrist-mounted grappling hook to rush towards, disarm, or avoid enemies - and that's before your upgrades. Everything from your brain to your legs to your pet dog can be enhanced as you gather money from your contracts.

Your cyber-mastiff is your only true companion - half-dog, half-robot, and ready to kill for you in exchange for treats. He warns you of enemies, can insta-kill them with a bite to the neck, and generally watches your back. In return, you can keep him hale and healthy with the best augments money can buy.
